

**REMARKS**

In the Office Action dated January 13, 2006, the Examiner examined claims 1-20 and 33-44, issued a restriction requirement and identified two inventions.

Applicants hereby elect, without traverse, to prosecute the invention of Group I (which includes claims 1-20). Claims 21-32 from non-elected Groups II and III were previously canceled from the application pending the filing of a divisional application. Claim 44 has also been canceled.

With respect to Claims 33-43, Applicants have amended these claims to fall within the combination of the Group I claims 1-20. More specifically, Applicants have deleted the "semiconductor bar" language noted by the Examiner as presenting a subcombination with separate utility.

In view of the foregoing, Applicants respectfully submit that the application is in condition for favorable action and allowance.

Respectfully submitted,  
JENKENS & GILCHRIST,  
A Professional Corporation
